# Landscape Performers 2027

A book for landscapers: the 4.5-inch, 6-inch and quart material Schlegel Greenhouse is growing for 2027 that stood out in public trial gardens through the summer. Every plant here earned a top result at Penn State, Raker-Roberta's or Colorado State, and none scored below 4 out of 5 at another of those trials.

The book is divided by light, then by water need, compact plants first. Each card gives the plant's height, spread, spacing and how many plants fill 100 square feet, with the trial result that put it here. The next pages turn spacing into plant counts for any bed.

## Reading a card

| | | | |
|---|---|---|---|
| ☀ ⛅ ☁ | Full sun, part sun or part shade, shade. | **Height** | Garden height, in inches. |
| **Role** | In a mixed planter: thriller (upright center), filler (mounding middle) or spiller (trailing edge). | **Baskets · Planters** | We also grow it into Hoosier Boy hanging baskets or combination planters this season. |
| **Ready wk** | Planned ready weeks, by week of the year. | NEW | New to the Schlegel Greenhouse program this year. |
| ★ | A verified award from a public trial or AAS. The card names the top one; ★ marks every color with an award of its own. | **Pot** | 4.5-inch, 6-inch or quart, listed on each card. |

Light not listed, water not listed 1 ..... 31

PLANNING A BED

# How many plants?

Every card gives a spacing, the distance between plants on center, and how many plants fill 100 square feet at that spacing. For any bed: length × width in feet = square feet, then square feet × plants per square foot.

| SPACING | 10 SQ FT | 100 SQ FT | 500 SQ FT | 1,000 SQ FT | 100 SQ FT, OFFSET ROWS | 10 FT OF EDGING |
|---|---|---|---|---|---|---|
| **6 in.** | 40 | 400 | 2,000 | 4,000 | 462 | 20 |
| **8 in.** | 23 | 225 | 1,125 | 2,250 | 260 | 15 |
| **9 in.** | 18 | 178 | 889 | 1,778 | 205 | 13 |
| **10 in.** | 14 | 144 | 720 | 1,440 | 166 | 12 |
| **12 in.** | 10 | 100 | 500 | 1,000 | 115 | 10 |
| **15 in.** | 6 | 64 | 320 | 640 | 74 | 8 |
| **18 in.** | 4 | 44 | 222 | 444 | 51 | 7 |
| **24 in.** | 3 | 25 | 125 | 250 | 29 | 5 |

Square grid, rounded. Offset (triangular) rows hold about 15 percent more plants at the same spacing and close in evenly. Example: a 4 × 25 ft bed is 100 sq ft; at 12 in. it takes 100 plants, at 10 in. 144.

## How these plants were chosen

Grown by Schlegel Greenhouse for 2027 in 4.5-inch, 6-inch or quart pots, and among the top performers in public trial gardens since 2022.

**Penn State** (Landisville, PA) and **Raker-Roberta's** (Litchfield, MI): a season rating above 4.75 out of 5. Summer performance comes first: at Penn State the August rating must be 4.75 or higher as well, from the in-ground (bedding) planting when one was trialed. Raker rates its in-ground trial weekly all summer and publishes the season score.

**Colorado State** (Fort Collins, CO) publishes winners, not scores, from one August evaluation: its in-ground trial winners and Best of awards since 2018 qualify.

The best six at most per genus. These are public trials, not trials run by Schlegel Greenhouse.

Vigor is the plant's spread in the plant library: compact under 12 in., medium 12 to 18 in., vigorous over 18 in.

# Every plant at a glance

A to Z. Spacing and size from the Hoosier Boy plant library; plants per 100 sq ft at that spacing on a square grid. Trial is the best qualifying result: Raker or Penn State (PSU) out of 5, with PSU's August rating, or a Colorado State (CSU) win.

- ○ **Clocks spring forward**, Mar 14 · wk 10
- ● Easter, Mar 28 · wk 12
- ○ **Indy safer frost date**, May 2 · wk 17
- ● Memorial Day, May 31 · wk 22
- ○ **First day of spring**, Mar 20 · wk 11
- ○ **Indy avg. last frost**, Apr 15 · wk 15
- ● Mother's Day, May 9 · wk 18

Filled: selling occasions. Ringed: planning dates; the frost dates are long-term Indianapolis averages (NOAA 1991–2020), not a forecast.

PLANNING THE SEASON

# Indiana spring weather

When the last frost usually comes, north to south. A median date means a frost after it happens one year in two; the later “safer” date is passed nine years in ten.

| LOCATION | LAST SPRING FROST | SAFER DATE | FIRST FALL FROST | ZONE |
|---|---|---|---|---|
| **South Bend** | May 1 | May 17 | Oct 19 | 6a |
| **Fort Wayne** | Apr 24 | May 10 | Oct 21 | 6a |
| **Lafayette** | Apr 26 | May 14 | Oct 18 | 6a |
| **Muncie** | Apr 16 | May 2 | Oct 25 | 6a |
| **Indianapolis** | Apr 15 | May 2 | Oct 26 | 6b |
| **Bloomington** | Apr 15 | May 3 | Oct 26 | 6b |
| **Columbus** | Apr 11 | Apr 30 | Oct 25 | 6b |
| **Evansville** | Apr 4 | Apr 19 | Oct 29 | 7a |

**These are long-term averages for planning, not a forecast or a guarantee. A frost after the safer date still comes about one year in ten.**

NOAA NCEI 1991–2020 U.S. Climate Normals, 32°F freeze dates by station (Muncie: 23 years of record). Zones: USDA 2023 Plant Hardiness Zone Map.

## Indianapolis in spring

| MONTH | AVG HIGH | AVG LOW | RAIN |
|---|---|---|---|
| **Mar** | 52°F | 33°F | 3.7 in. |
| **Apr** | 64°F | 43°F | 4.3 in. |
| **May** | 73°F | 54°F | 4.8 in. |
| **Jun** | 82°F | 63°F | 5 in. |

Indianapolis International Airport, NOAA NCEI 1991–2020 normals.

## When to plant out

- Purdue Extension's annual flower guide: set annuals out once frost danger is past, about May 1 in southern Indiana, May 15 in central and May 20 to 30 in northern Indiana.
- Wait for soil above 60°F before sowing annual flower seed outdoors (Purdue Extension).
- Tender plants want nights of about 50°F. Peppers, melons and squash want 60 to 65°F, at least two weeks after the average last frost (Purdue Extension).
- Mother's Day, May 9 in 2027, is the usual planting signal in central Indiana. It falls after the safer date from Indianapolis south, but before it in Fort Wayne, Lafayette and South Bend.

ON RECORD AT INDIANAPOLIS

The latest spring freeze on record at Indianapolis came on May 27, 1961. (NWS Indianapolis)

The latest measurable snow at Indianapolis fell on May 9, 1923: the same date as Mother's Day 2027. (NWS Indianapolis)

Indianapolis records run from 106°F (July 14, 1936) to -27°F (January 19, 1994). (NWS Indianapolis)
