HOOSIER BOY by Schlegel Greenhouse

Photos: Schlegel Greenhouse, Michigan trials and Cultivate 2026; Key Lime Fringe: Ball FloraPlant

Schlegel Greenhouse · 705 Sprague Street, Indianapolis, IN 46217

Spring 2027 Annuals

Every annual Schlegel Greenhouse is growing for spring 2027 that has a photo, crop by crop: the 4.5-inch Hoosier Boy pot and every other size, from flats and 6-inch pots to hanging baskets, coco baskets and planters. Varieties are grouped by series, the way they are bred and sold, with the light, size and use for each. Varieties without a photo yet are listed on the Also Available pages at the back.

Most of these varieties also go into Hoosier Boy hanging baskets and combination planters. Those are marked on each card, so the 4.5-inch pot can sell beside the finished basket it came from. Early spring crops and osteospermum have a book of their own.

Ready weeks are the weeks of the year the crop is planned to finish. Current availability and pricing are always in the online ordering portal.

- ○ **Clocks spring forward**, Mar 14 · wk 10
- ● Easter, Mar 28 · wk 12
- ○ **Indy safer frost date**, May 2 · wk 17
- ● Memorial Day, May 31 · wk 22
- ○ **First day of spring**, Mar 20 · wk 11
- ○ **Indy avg. last frost**, Apr 15 · wk 15
- ● Mother's Day, May 9 · wk 18

Filled: selling occasions. Ringed: planning dates; the frost dates are long-term Indianapolis averages (NOAA 1991–2020), not a forecast.

PLANNING THE SEASON

Indiana spring weather

When the last frost usually comes, north to south. A median date means a frost after it happens one year in two; the later “safer” date is passed nine years in ten.

LOCATION	LAST SPRING FROST	SAFER DATE	FIRST FALL FROST	ZONE
South Bend	May 1	May 17	Oct 19	6a
Fort Wayne	Apr 24	May 10	Oct 21	6a
Lafayette	Apr 26	May 14	Oct 18	6a
Muncie	Apr 16	May 2	Oct 25	6a
Indianapolis	Apr 15	May 2	Oct 26	6b
Bloomington	Apr 15	May 3	Oct 26	6b
Columbus	Apr 11	Apr 30	Oct 25	6b
Evansville	Apr 4	Apr 19	Oct 29	7a

These are long-term averages for planning, not a forecast or a guarantee. A frost after the safer date still comes about one year in ten.

NOAA NCEI 1991–2020 U.S. Climate Normals, 32°F freeze dates by station (Muncie: 23 years of record). Zones: USDA 2023 Plant Hardiness Zone Map.

Indianapolis in spring

MONTH	AVG HIGH	AVG LOW	RAIN
Mar	52°F	33°F	3.7 in.
Apr	64°F	43°F	4.3 in.
May	73°F	54°F	4.8 in.
Jun	82°F	63°F	5 in.

Indianapolis International Airport, NOAA NCEI 1991–2020 normals.

When to plant out

- Purdue Extension's annual flower guide: set annuals out once frost danger is past, about May 1 in southern Indiana, May 15 in central and May 20 to 30 in northern Indiana.
- Wait for soil above 60°F before sowing annual flower seed outdoors (Purdue Extension).
- Tender plants want nights of about 50°F. Peppers, melons and squash want 60 to 65°F, at least two weeks after the average last frost (Purdue Extension).
- Mother's Day, May 9 in 2027, is the usual planting signal in central Indiana. It falls after the safer date from Indianapolis south, but before it in Fort Wayne, Lafayette and South Bend.

ON RECORD AT INDIANAPOLIS

The latest spring freeze on record at Indianapolis came on May 27, 1961. (NWS Indianapolis)

The latest measurable snow at Indianapolis fell on May 9, 1923: the same date as Mother's Day 2027. (NWS Indianapolis)

Indianapolis records run from 106°F (July 14, 1936) to -27°F (January 19, 1994). (NWS Indianapolis)

DID YOU KNOW?

Edinburgh's floral clock in Princes Street Gardens, first planted in 1903, is believed to be the oldest in the world. By the 1980s each summer's design used about 35,000 plants.

DID YOU KNOW?

Victorian gardeners loved carpet bedding: plants of equal height set in tight patterns that look like a rug from above. Coleus, brought to England in the mid-1800s, was a favorite.
